### Central Printing Installs New Printing Press

Officials at Central Printing Corporation, Delavan, WI, announce the recent purchase and installation of a Komori 5 color sheet-fed press.

Central Printing is a full-service design and printing firm located in Delavan. In addition to servicing the needs of southeastern Wisconsin, their customer base extends as far as Hawaii, New York, Texas and Georgia. The company boasts 40 total employees operating in two plants located in Delavan. Company President Tom Monien reports, “in spite of the current economic condition, we feel the investment is warranted based on the needs of our clients.” He emphasizes, “improving quality, turnaround times and lowering operating costs are paramount goals for us to achieve continued success in this industry.” The press, which operates at a speed up to 13,000 sheets per hour, can print one side or both sides of a sheet in one pass.

Among the industries that Central Printing serves, includes: hotel & hospitality, education, medical, service organizations, publishing companies, financial institutions and advertising agencies/design studios.

For more information about Central Printing or the new press, feel free to contact Tom Monien at 262-728-4231 or email him at [tmonien@centralprinting.com](mailto:tmonien@centralprinting.com).
