Feel the Earth Move: System 38/1250

12

The 32-page System 38/1250 will change the web printing industry. Makeready performance, print quality and a level of automation that no other web approaches. A feeder-to-folder look at the technologies and design.

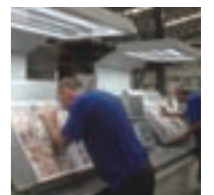

Case Study

York Mailing Commissions the System 38/1250

18

The first System 38/1250 in Europe went to YORK MAILING, becoming this UK company's fourth Komori web offset press. Co-founder and Chairman Mike Newbould explains why it fits in so well and how it 'ideally meets the demands placed on a modern offset web house.'
