

# Tsukuba Plant

Full Start 12/05/05

News

## KUK Chiefs Bullish on Prospects 4

KUK's Martin Rickards and Neil Sutton take a pre-IPEX look at the European printing industry and the factors behind Komori's rising profile across the continent. Plus the reasons for the growing number of perfectors being commissioned.

Exhibition

## Komori to Make Waves at IPEX 2006 6

The April exhibit in Birmingham, UK, will be the launchpad for several new Komori presses, including the exciting five-color LS-29 with coater and the LS-40SP in five colors. JDF data flow, a working unit from the 16-page System 38S and an evolved DoNet. Full preview pinpoints the highlights.

News Release

## Lithrone S26/S29 Debuts And Tsukuba Plant Opens 12

Komori has migrated LS-40 technologies to the half-size format in the new LS-26/29. A look at the technologies and design approach embodied in this high-performance machine. Plus the opening of Komori's new state-of-the-art Tsukuba Plant.

User Profiles
